

Name _____

Date _____ Per. _____

Energy Production

Research each of the types energy production listed below and complete the table with the appropriate information. You may attach a separate sheet of paper if you need more space. Color-code each of the Types of Production in the first column of the chart.

Type of Production	Relative Capital Investment	Approximate cost in \$/MWh	Pollutants/Waste Products	Advantages	Disadvantages	U.S. Government Policy	Status in U.S.
Coal							
Oil							
Natural Gas							
Nuclear							
Biomass							
Solar							
Wind							
Hydro							
Geothermal							
Tidal							

On the map below, select fifteen countries and color-code them based on their primary source of energy production. Three of the fifteen countries must be: the United States, China, and India. The remaining twelve should be from a variety of locations on the planet. Label the countries that you color-code.
